A Cappella Championships 08

The Aca Champs, as it is endearingly known as, is a programme that aims to provide positive reinforcement for all participating groups through positive feedback, encouragement and non-political support for all groups.

It also serves as an annual testing ground for local and new pop / jazz a cappella groups to compete against one another in a friendly environment, winning prizes that would enable them to reach more performance platforms and opportunities through the society. A new category this year extends the competition to choirs and vocal ensembles.

It has over the last 7 years become THE annual a cappella competition which singers look forward to attending and competing in, allowing them to watch and learn from other teams and for them to access for themselves, the development of standards across the categories each year. The inclusion of international groups raises the standard of the competition and A Cappella in Singapore.
