

TAS YOUTH VOICES

The A Cappella Society Youth Voices is a free training program for young people who share a passion for a cappella singing and performance. It serves as a training ground where talents, interests and skills are honed over a period of at least 4 - 6 years, providing singers with a rehearsal studio, workshop and performance opportunities and the best source for a cappella training in Singapore and beyond. They come with a lot of stage experience gained at multiple private and public performances all year round. Their repertoire spans from A Cappella classics like Only You, jazz and pop standards in English and Mandarin, to contemporary pop songs like Let's Get Loud.
